Test & Physical Properties.

Sr.No.	Test	Result
01.	Physical State	Liquid
02.	Colour	Clear
03.	Odour	Acidic
04.	Solubility	Soluble in water
05.	Flammability	N.A
06.	Density	>1.25 Kg./L
07.	Viscosity	N.A
08.	PH	1
09	Corrosion to Metal	Corrosive
10.	Boiling Point	N.A
11	Flash Point	>94°C

USES :

Make stock solution at 1% to 2% (1 Kg or 2 Kg. in 100 Ltr. of water)
Rinse equipment with clean water until no residue of detergent is present. After
rinse PH should be 7.

Advantages of OMEGA – ULTRA PROPPER

- 01. Ready for Direct Use :** This can be used directly making it risk free measuring of acids.
- 02. Consistent Quality :** Concentration and quality of acidic detergent is proper and you can be sure of cleaning process.
- 03. It is not only Nitric Acid :** It is not merely Nitric Acid as generally used in food industries. It is combination product of Nitric Acid, sequestering agents and surface active agents.

As a part of automated cleaning operation an acidic detergent is regarded as one of the most efficient and cost effective way of removing a wide variety of soils, proteins, fats and carbohydrates keeping metal clean and protected.
